**Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:**

---

Transfer credit for previous graduate work: Students who have completed previous graduate work at another university may request transfer for this work. Request for transfer for academic credit and coursework will be reviewed by the PC/DCT on a case by case basis for recency and academic applicability. Only courses completed within 5 years from the date of admission into the Psy.D. program, at a regionally accredited university, with a grade of B (3.0) or better may be considered for transfer. The maximum number of transfer credits is 12 semester hours. Transfer credit may reduce course load during various semesters of the program but does not shorten residency requirements or the number of years required to complete the program. Transfer credit is not awarded for any courses used to assess DSK or PWC. Students requesting transfer credit for previous graduate work must submit official transcripts and copies of relevant syllabi to the PC/DCT for formal review by November 1st of their first semester in the program. Requests for transfer credit past that date will not be honored. The PC/DCT, in consultation with relevant course instructors, decides whether or not to award transfer credit.
